

COMMUNITY RESOURCES

The board of trustees will draw on the knowledge and opinions of the school community in developing mandated policies and programs in compliance with statute and administrative code, and to aid in meeting the school's identified needs.

The board of trustees encourages local businesses and individual residents who are especially qualified because of training, experience or interest to take an active part in the school's educational programs. Those persons and representatives of businesses identified by the lead person and the staff and approved by the board may be invited to act as advisors in groups or individually in appropriate circumstances and situations.

The school shall also take advantage of the physical and financial resources of the community and of organizations including businesses when such facilities or locations provide learning and enrichment opportunities not otherwise available to our students. Student safety shall be a primary concern in making use of such resources.

In accordance with law, the administration shall identify and establish working relationships with licensed community agencies that are involved in evaluation and treatment of drug/alcohol problems.
