

Dear Parents/Community Members

We are partnering with Girls Who Code to bring free computer science opportunities to girls across our community. We are looking for volunteers like you to help facilitate our club and would love for you to become a Volunteer Facilitator at Academy Charter High School.

Girls Who Code Clubs are free after-school programs for 3rd-12th grade girls to join a sisterhood of supportive peers and role models and use computer science to change the world. Clubs are led by facilitators, who can be teachers, librarians, parents, or volunteers from any background or field. Many facilitators have no technical experience and learn to code alongside their club members.

- 6th-12th grade clubs program focus on a Girls Who Code Project where girls work in teams to solve a real world problem they care about through code.

To facilitate a club, you must:

- Be 18+
- Pass a background check
- Be available to lead the club for 1-2 hours per week.
- Be comfortable learning alongside club girls as they explore foundational computer science concepts. The Girls Who Code curriculum is designed so that anyone can facilitate a club; no computer experience is needed!
- Have a passion for Girls Who Code mission to close the gender gap in technology and the ability to foster community within your Girls Who Code Club.

All materials from Girls Who Code are provided for **Free** to the Club Facilitator, including:

- 6th-12th Clubs: 120+ hours of curriculum, tutorials of all skill levels, and online learning management system.
